Task the FIrst: The Plan
2018-10-16

Program Components

- Authentication
    - Role: Only authenticated users are allowed to edit stories, create new stories and view stories that they have contributed to before.
    - Usernames and passwords will be used for authentication
- Creating a Story
    - Allows the authenticated user to create a story with a title and introduction. This creates an entry in the database.
- Adding to an existing story
    - Allows the authenticated user to view the last edit of the story, the title of the story, and add on to the story.
- Viewing stories
    - Authenticated users can see stories that they have added to
    - If the user does not want to edit a story ever and only wants to view it, editing on that story is disabled for that user permanently.
- Permissions
    - Authenticated users can only see the latest edit of a story that they have not contributed to.
- Search (Stretch)
    - Allows the user to search for stories by category and/or title.

Database Schema:

USERS

Username	TEXT
Password	TEXT
User ID	INTEGER

STORIES

Story ID	INTEGER
Body of Story	TEXT
Title	TEXT

LOGS

Log ID	INTEGER
Story ID	INTEGER
User ID	INTEGER
Text added	TEXT
